

Do you know what the 12 Commandments for Achieving Successful Turnarounds are? *We do.*

Register for Carmagen Engineering's upcoming Turnaround Mini-Conference, a unique opportunity to learn from the best, and implement this information at your own company with confidence.

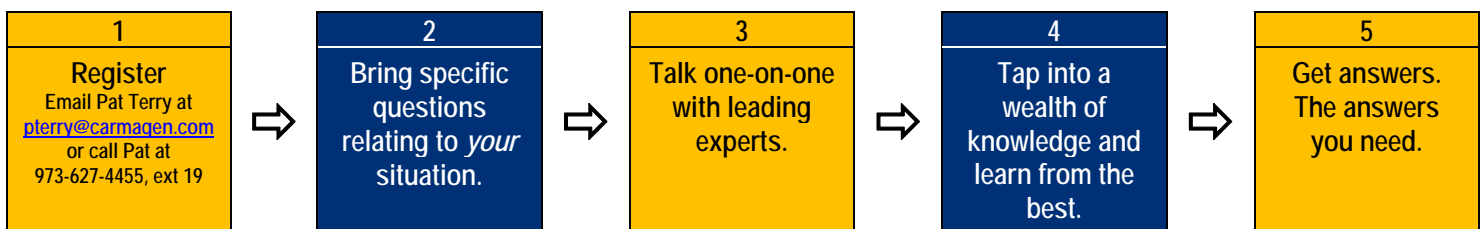

During our intense three-day program, the mornings and early afternoons focus on the 12 commandments, followed by daily discussions. Limited to only 8 attendees, this mini-conference gives one-on-one access to our leading experts, who will address your own specific turnaround concerns and problems.

The Carmagen Engineering Turnaround Mini-Conference teaches proven practices that have been successfully applied to 19 key turnaround areas. Each turnaround area is introduced with Key Elements, followed by practices for the four different turnaround-planning phases: *Initial Planning, Detailed Planning, Execution, and Post-Turnaround*. The key areas covered are:

Day 1	Day 2	Day 3
<ul style="list-style-type: none"> Turnaround Management and Philosophy Milestone Plans Work Scope Cost Management 	<ul style="list-style-type: none"> Turnaround Planning Contracting Scheduling Inspection Process Operations Projects/Engineering Material Procurement 	<ul style="list-style-type: none"> Organization Communication Safety/Health/Environmental Logistics/Security Execution Pre-Turnaround Reviews Closeout

Emphasis is placed on planning, scheduling and management of turnarounds. Work selection, a key factor to turnaround duration and cost, will be discussed, and a methodology presented to optimize the work scope.

Five Steps to Turnaround Success – What to Expect When You Attend

Cost: \$2500 per person, includes course and all course materials,
3 nights at a local hotel, 3 breakfasts and lunches, and Welcome Dinner.

The Mini-Conference is being offered on **October 14-16** (Session 1) or **October 27-29** (Session 2).
